23ᴿᴰ ICCRTS THEME

Multi–Domain C2

21ˢᵗ Century MDC2 Challenges

- Heterogeneous mission partners (JIMP)
- Physical, Virtual, Social Domains
- Contested Cyber Environment
- Employment of Non–Human Intelligent Collaborators (NIC) and Autonomous Systems

SOME MDC2 CONSIDERATIONS

- Heterogeneous mission partners will have different preferred approaches to C2–Governance

- Physical, Virtual, Social Domains differ in ways important for C2–Governance

- Contested Cyber Environment makes it imperative to harmonize defensive cyberspace operations with other missions

- Trust in and dependence upon NIC/AS will differ across entities and domains
